NEWS RELEASE

New Gateway Project for Mansfield District Council

A & S Enterprises have recently started work on the new "Gateway Project" which will provide valuable new starter units for small businesses in the Mansfield area. The £970,000 contract will provide six new office units with major improvements to the landscaping to radically improve a disused area of land adjacent to the train station.

The sloping site incorporates major retaining walls, new fencing, flood alleviation measures and new footpath with scope for future development and will be an attractive gateway to Mansfield Woodhouse.

Andy Sulin, Managing Director of A&S Enterprises said "We are pleased to have been entrusted with this prestigious building contract and working in partnership with Mansfield District Council.
