NEWS RELEASE

Works starts on the New Heanor Medical Centre for A & S Enterprises Limited

The start of building work for new healthcare facilities on the site of the former Heanor Memorial Hospital was celebrated with a turf-cutting ceremony on Thursday 1 December at 1pm.

Heanor community representatives, including local councillors, were invited to attend the event. Contractors A&S Enterprises Limited began moving in and preparing the site in early November, after winning the contract to build the new healthcare facilities. The project will take 12 months to complete.

A&S Enterprises are based at Lancaster Court, Lancaster Park, Burton upon Trent, and have an established track record in the construction of NHS healthcare premises.

The total cost of the project will be around £3.5m, incorporating not just the building costs but all the associated costs of fitting out, preparing and opening the new building ready for patient care.

Jonathan Leese, marketing manager for A&S Enterprises said: "We have a wealth of experience in healthcare projects including Ilkeston Medical Centre and Ilkeston Community Hospital. The majority of our workforce are from Derby and we are keen to use local companies on our projects. Our contracts manager lives just 3 miles away so this is very much a local project for us."
